I'm still thinking about 4x8 mirror because of they are more pretty than mylar and perfectly flat.

And if I could lend the mirror from a mirror company with proffesional mirror workers, I think it will be safe and quick and we don't need think about it after its taken down.

Please keep try to lend mirrors from a mirror company with proffesional workers to install it and take it down.

If we don't have any another way I'll use mylors.

P. S.

1. I sent drawings yesterday and I'm trying to get B&W negative from Japan. I'll call you when I got.
2. Please put the credit of Bill Murray on B&W photograph of 8" x10" car pieces.
3. Please put my catalogs on your book table. I'm selling about \$6 in Japan.
4. Send me your publicity when you made. I have to send some people to invite.

Thank You.
